

Berkswell CC - Changing Rooms and Showering Facilities Policy

Berkswell CC adopts the ECB best practice which is as follows:

- Adults must not change, or shower, at the same time using the same facility as children - if the same changing room is used then they must have different times to change and shower. In common with many clubs, we do not currently have home facilities that enable full segregation of senior and junior players, therefore junior players will be expected to change and shower at different times to adults.
- Mixed gender teams must have access to separate male and female changing rooms.
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms. Signage in the changing room areas is in place to remind all players of this requirement.

If children are uncomfortable changing or showering at the club, no pressure is placed on them to do so. Children are encouraged to change and shower at home instead.
